

## Methodist Mansfield Grows Brighter

This year, Methodist Mansfield Medical Center celebrated the opening of a newly expanded Emergency Department, Intensive Care Unit, and Telemetry Floor. The \$37 million expansion doubled the size of the Emergency Department to 35 treatment rooms, added eight ICU treatment rooms, and included 36 telemetry patient rooms. Laura Irvine, president of Methodist Mansfield, remarked, "We have a great staff, and we are thankful that so many members of our communities have entrusted Methodist Mansfield with their health. This expansion allows us to continue to deliver quality clinical services in a patient-centered, modern environment of care."

Locally, Methodist Mansfield Medical Center provided more than \$11.2 million in unreimbursed charity care and government-sponsored indigent health care. We employ 697 health care professionals, making us one of the largest employers in the Mansfield area.

## Helping Our Community Shine

Methodist Mansfield is committed to giving back to the community and actively supports activities that improve the health and quality of life of the residents in the communities we serve in southeast Tarrant, Johnson, and Ellis counties. Our employees volunteered thousands of hours last year to community projects like the City of Mansfield's Wellness Matters Program, Midlothian and Grand Prairie Wellness Programs, Mansfield WinterWalk, Night Out at the Movies, Every 15 Minutes, and Shattered Dreams programs that help teens combat drunken driving, career days, health screenings, hand-hygiene clinics, sports physicals, and numerous other activities that provide education and resources for improved health.

## Committed to Brightening Minds

Methodist Mansfield offers numerous health education programs to improve and support healthier lifestyles. Methodist Mansfield and 3M Infection Prevention Division provided hand sanitizer to every classroom in the Mansfield ISD, and sponsored a poster contest to promote the importance of hand hygiene and curb the spread of influenza and other communicable diseases.

Methodist Mansfield is committed to developing future doctors and nurses right here in our own community. Through partnerships with the Mansfield ISD's Ben Barber Technology Academy, University of Texas in Arlington, and Tarrant County College School of Nursing, students have an opportunity to gain valuable clinical experiences and learn by shadowing nurses at the hospital.

## Shining Examples of Community Leadership

We are grateful to the members of our Community Advisory Board who provide countless hours offering guidance, recommendations, and vision for the health care needs of the communities we serve.
