Helping Our Community Shine Brightly
Methodist Mansfield is committed to giving back to the community and actively supports activities that improve the health and quality of life of the residents in the communities we serve. Our employees volunteered thousands of hours last year to community projects like the City of Mansfield’s Wellness Programs, Midlothian and Grand Prairie Wellness programs, Destination Grand Prairie Run/Walk, Mansfield Watermelon and Night Out at the Movies, Every 10 Minutes, and Shattered Dreams programs to help keep youth combat drugs driving, career, danger, health screenings, and other activities that have helped improve the health of the communities we serve.

Leading Interactive Care
Cardiology Director Bernnie Kennedy displays the new bedside computer-based patient education software, along with the 4- by 6-foot painting created by Dallas Heart Walk volunteers and donated by Petal Systems. The new interactive software enables physicians to communicate with patients and their families by illustrating surgical procedures patients may undergo. The new Web-based animations are available in both English and Spanish and can be accessed through the new portable bedside computer and the Methodist Health System Web site.
