2011
Community Highlights

As Methodist Mansfield Medical Center, our mission is to improve and save lives through compassionate, quality health care. We’re delighted to share with you some of the many ways we fulfilled that mission in 2011.

Committing to a healthy community

- Medical support for local athletes. Methodist Mansfield provided comprehensive sports medicine, health education, and training programs for school athletes and supplied performance measures for every staff member in the Mansfield ISD.

- Principals’ Fitness Challenges. This program promoted physical fitness in the Mansfield ISD, starting fun ways for the principals, teachers, students, and parents to be more active and enjoy a healthier lifestyle.

- City wellness programs. Methodist Mansfield hosted educational programs and health screenings for local city employees.

- Shattered Dreams. To help prevent teen awareness of death awareness, Methodist Mansfield served as a site for the Shamed Dreams program for community school district.

We also support numerous community events and organizations, including: Mansfield Chest; March of Dimes; American Cancer Society; Up to Our Alley; Greater Mansfield Chamber; Greater Mansfield Chamber; Greater Midlothian Chamber; Greater Cedar Hill Chamber; and Greater Balch Springs Chamber.

Heart care to count on

Methodist Mansfield Medical Center expanded its cardiac care offerings this year:

- Accredited Cycle III Chest Pain Center with PCI (percutaneous coronary intervention). This is the Society of Chest Pain Centers’ highest level of achievement.

- Minimally invasive open heart surgery. With our cardiothoracic surgeons, our care team and advanced operating rooms, we’re poised to be the area’s go-to source for open heart surgery and interventional cardiology.

- New heart procedures. In the hospital’s cardiac catheterization lab, we’re now performing anterior spatial defibrillator repair to correct heart defects, as well as a new percutaneous procedure through the wrist, called TR PCI, which reduces the risk for complications.

Contributing to the economic health of our community

Do you know? Methodist Health System employs 6,352 professionals throughout the DFW Metroplex and 753 at Methodist Mansfield, making it one of Mansfield’s largest employers.
