

Clinic Services :

Health care clinics often have limited hours and inconvenient locations, making it hard to schedule appointments during the workday. After-hours clinics may be more convenient, but they don't always provide the quality and continuity of care your employees need. Methodist's Clinic Services offer the convenience of more than 29 health care facilities located across the Dallas/Fort Worth Metroplex — close to home and work. We'll work with you to provide extended hours and dedicated staff at the location of your choice, or we'll even set up a new clinic near your facility or on-site.

 **Convenient access to care**

Choose from more than 29 facilities, or build a facility on your campus.

 **Extended service hours**

Extended service hours allow your employees to get the care and prescriptions they need, without missing work.

 **Dedicated clinic space**

Dedicated space in one of our clinics, staffed during the hours that are convenient for your organization.

Popular clinic services:

- Prescriptions
- Routine vaccinations
- Screenings
- Lab services
- Referrals to specialists
- Utilization and impact reporting
