IN 2012, METHODIST HEALTH SYSTEM UNDERTOOK 
an ambitious task — one that would improve and save 
thousands of lives every year. In order to grow 
along with the needs of North Texas, Methodist 
Dallas Medical Center needed a new trauma, critical 
care, and emergency services facility. Methodist 
Health System Foundation was called upon to raise 
$20 million toward that endeavor.

We did what we always do: We rolled up our sleeves 
and got to work. What bolstered our resolve were the 
hundreds of others — you — who joined us in that 
work. Because of you, the Charles A. Sammons Tower 
stands as a beacon of hope to all of North Texas and 
has already begun making the impact we had dreamed 
it would.

DEAR friends,

R. STEPHEN FOLSOM
Chairman of the Board of Trustees
Methodist Health System Foundation

STEPHEN L. MANSFIELD, PHD, FACHE
President and CEO
Methodist Health System

APRIL BOX CHAMBERLAIN, CFRE
President and CEO
Methodist Health System Foundation
Senior Vice President, External Affairs
Methodist Health System

Even with this goal achieved, you continue to show 
Methodist your support — helping us build a new 
patient care tower at Methodist Mansfield Medical 
Center, investing in our life-giving transplant services, 
and year after year joining us in honoring amazing 
community leaders, just to name a few examples.

We are truly humbled by your generosity to Methodist 
and are honored to serve alongside you in building a 
brighter, safer Dallas.
THE $20 MILLION BRIGHTER CAPITAL CAMPAIGN
IN SUPPORT OF A NEW
emergency, trauma, and critical care tower at Methodist Dallas Medical Center was Methodist Health System Foundation’s most ambitious and historic effort to date.

Energized by the Sammons Dallas Foundation’s lead gift of $5 million, the community followed with tremendous generosity. Because of your commitment to protecting and saving lives in southern Dallas County and beyond, we reached our goal in two short years.

Providing verified Level 1 trauma services, the Sammons Tower now can respond to up to 90,000 patient visits a year. Among the tower’s many features are five dedicated trauma suites, Dallas’ second Sexual Assault Nurse Examiner (SANE) site, and eight new operating suites that accommodate large surgical teams and advanced robotic technology. And our neurocritical care and surgical intensive care units have almost doubled in capacity.

“Thank you on behalf of the physicians, the hospital staff, our patients, and the community. You have given us a symbol of Methodist’s commitment to overall excellence in the care of critically ill and critically injured patients from all over North Texas. With our verified Level 1 Trauma Center services, we can truly lead in trauma care in Dallas.”

J. DARRYL AMOS, MD, FACS, Chief of Surgery, Methodist Dallas Medical Center

“After a head-on car collision, all my limbs were broken, and I had internal bleeding and other injuries. The doctors and nurses at Methodist Dallas saved my life — and my quality of life — not only healing my body but also rebuilding my self-esteem. Because you have put your hearts into emergency and trauma care in Dallas, others like me will have a place to go. You’ll never know how many lives you’ve changed.”

CASSIDY SMITH, 19, Crandall

BECAUSE OF YOU
THOUSANDS OF LIVES WILL BE SAVED
“Every day the emergency team strives for excellence in patient care. Limited space had presented challenges as we worked to care for more and more patients each year. It is truly gratifying to have the new emergency department with dedicated equipment. We now serve our patients faster and in greater privacy. Your support has allowed us to provide better-quality care in a beautiful new environment.”

AMANDA PEÑA, BSN, RN, CA-SANE, Emergency Department Nurse Manager, Methodist Dallas Medical Center

“For 21 years, I’ve been bringing patients to Methodist Dallas. It’s an institution vital to our ability to save lives, because we feel there is nothing Methodist can’t handle. Now with the Sammons Tower, the hospital is second to none. The setup is perfect, and it’s absolutely beautiful. Everything is just as it should be. Job well done.”

MARK AUSTIN, Driver Engineer/Paramedic, Dallas Fire-Rescue, and Paramedic, Methodist Dallas Medical Center
BECAUSE OF YOU
DALLAS HAS A BRIGHTER FUTURE

THE SUCCESSFUL COMPLETION OF THE METHODIST
Dallas Medical Center Charles A. Sammons Tower
would not have been possible without the leadership of
the BrightER — Saving Lives. Serving Dallas. Capital
Campaign committee.

Chairman Chris Kleinert and the committee’s other
23 members had the opportunity to thank donors
personally at an event on June 12, 2014, at Cloud Nine
in Reunion Tower. The event featured a surprise visit
from Superman and recognition of both Kleinert and
Methodist Health System Foundation President April
Box Chamberlain, CFRE, as superheroes in this
monumental campaign.

A few weeks later, on July 24, 2014, the committee
joined city and hospital leaders to celebrate the
Sammons Tower’s grand opening.

“This is an outstanding day in the history of Dallas,”
Kleinert remarked. “This is a world-class facility
for world-class physicians to deliver world-class
health care.”

In recognition of his leadership on the campaign,
Kleinert received the Outstanding Volunteer Fundraiser
Award at the 29th annual National Philanthropy Day
Luncheon hosted by the Association of Fundraising
Professionals Greater Dallas Chapter.

Here’s a look back at our June 12 donor event and
July 24 grand opening.

“To our BrightER Capital Campaign committee, thank you for
tirelessly championing the new Charles A. Sammons Tower.
Our committee comprised a thoughtful mix of individuals
from different industries and generations whose talent, integrity,
and dedication helped to ensure the success of our campaign.
Your commitment and hard work resulted in a brighter,
safer future for Dallas, and it was an honor and my sincere
pleasure to work alongside you on this campaign.”

CHRIS KLEINERT
CEO and President
Hunt Consolidated Investments, LLC
Chairman
BrightER Capital Campaign Committee
BECAUSE OF YOU
WE’RE GROWING STRONGER
AND REACHING FARThER

LONG BEFORE METHoDIST MANsFIELD MEDICAl
Center opened its doors in December 2006, the
hospital had you as its devoted supporters. This year,
you demonstrated your commitment once again as you
helped us break ground on and top out the new
Patient Care Tower Two.

The $118 million facility expansion will help ensure
that Methodist Mansfield has the capacity to provide
advanced quality care for this rapidly growing
community for years to come. The new tower opens
in fall 2015.
BECAUSE OF YOU WE CELEBRATE A 10-YEAR LEGACY

IN 2005, METHODIST HEALTH SYSTEM FOUNDATION CREATED THE Robert S. Folsom Leadership Award to recognize people whose demonstrated commitment and excellence in community leadership emulate the achievements of former Dallas Mayor Robert S. Folsom. Recipients are selected for making a lasting, positive change in the Dallas community and inspiring others to follow in their paths.

Through your support of the Folsom Award, you’ve helped reduce preterm births through the Life Shines Bright Pregnancy Program. You’ve grown our pastoral care, neurocritical care, emergency, and trauma programs. And you’ve provided for the medical needs of Methodist’s indigent populations.

Many thanks to all who have honored our Folsom Award recipients through the years.

Past Robert S. Folsom Leadership Award recipients

2005  Robert S. Folsom
2006  Nancy Ann Hunt
2007  Troy Aikman

7  Nancy Ann and Ray L. Hunt
8  Paul Hегg, Katherine Hughes, and Michael M. Boone
2014 FOLSOM AWARD HONOREE
BOBBY B. LYLE

IT IS HARD TO MEASURE THE EFFECT THAT BOBBY B. LYLE has had on North Texas, simply because his business and philanthropic leadership continues to ripple outward.

In a diverse career spanning six decades, Lyle has served on the boards of more than 20 private and public companies in a variety of industries. In the midst of his professional success, he has carved out a steadfast commitment to family and is a passionate advocate of education and his community. He has been a tireless servant leader for Southern Methodist University, the Salvation Army, the Circle Ten Council – Boy Scouts of America, and numerous other service organizations.

Because of his diligence, compassion, and altruism, and the number of lives he has touched, we proudly named Lyle the recipient of this year’s Folsom Award.

The event topped all previous years, raising over $1.5 million.

“I had the privilege of watching Robert Folsom bring people together from across our city to work for the betterment of all of Dallas. So it is a tremendous honor to be recognized by Methodist Health System Foundation with this prestigious award bearing his name. I am especially proud that this year’s Folsom funds will be used for medical education and graduate fellowships. I cannot think of a more important investment than in educational opportunities for our future physician leaders.”

BOBBY B. LYLE, 2014 Robert S. Folsom Leadership Award Recipient
“He really wants to leave this world a better place than he found it.”

RAY L. HUNT

“His ability to create and influence positive change is monumental. Congratulations, Bobby.”

KEN BLANCHARD, PHD

“He has that special touch for knowing the power of the small act in people’s lives.”

Medical school is only the beginning of a young physician’s education. For decades, Methodist Health System has stood as a training ground for new doctors under the tutelage of our gifted and experienced physician faculty. Currently, the Graduate Medical Education (GME) program hosts residencies in general surgery, internal medicine, obstetrics/gynecology, and family medicine and fellowships in gastroenterology, hepatopancreatico-biliary surgery, nephrology, and surgical critical care.

“I love that I have the chance to make an immediate impact on a person’s life; it is extremely gratifying. At Methodist, I’m training in facilities and learning from faculty who are second to none, and this is only possible because of supporters of Methodist’s GME program. You are allowing people like me to pursue their dreams and reach their goals while at the same time ensuring high-quality care for future generations.”

John Goodwin, MD, Second-Year Gastroenterology Fellow

As residents gain clinical expertise and physicians pursue advanced specialty training in fellowships, they are also serving our community by providing quality patient care in Methodist’s hospitals and clinics.

Through your support of the 2014 Robert S. Folsom Leadership Award in honor of Bobby B. Lyle, you have joined Methodist Health System Foundation in helping to ensure brilliant doctors-in-training become the best-possible physicians of tomorrow.
Transplant is life. It saves people from debilitating and life-threatening diseases. With your support, we can continue to acquire and master the latest surgical and medical technologies and offer our patients hope. Truly, anything that we can do to give our patients more hope and the best-possible experience is worth it.

ALEJANDRO MEJIA, MD, Executive Program Director, Organ Transplantation, Methodist Dallas Medical Center (right)

BECAUSE OF YOU
WE’RE GIVING PEOPLE BACK THEIR LIVES

METHODIST DALLAS MEDICAL CENTER’S TRANSPLANT PROGRAM was established more than 30 years ago, and in that time, almost 3,000 lives have benefited from organ transplants.

We were home to the world’s first combined heart-kidney-pancreas transplant. This past spring, we performed a record-breaking seven kidney transplants in three days. And we’re the first hospital in North Texas to offer the robotic Whipple procedure for pancreatic cancer patients.

“Thank you so much for making the FibroScan technology available to both our patients and physicians. Patients come to Methodist Dallas simply because we have this fast, easy, painless, and less expensive alternative to surgical liver biopsies. It also gives physicians immediate access to information that helps them prescribe treatment and track a patient’s progress. This has truly revolutionized liver care as we know it.”

TRACY GIACOMA, MSN, MBA, RN, FACHE, Vice President Transplant Services, Methodist Dallas Medical Center (at left)

Donations to Methodist Health System Foundation have not only helped make lifesaving transplants possible for patients who might not otherwise be able to afford them, but they’ve also helped us become the first hospital in North Texas to offer FibroScan® testing, which is taking care to a new level of ease and efficacy for liver patients.

“Transplant is life. It saves people from debilitating and life-threatening diseases. With your support, we can continue to acquire and master the latest surgical and medical technologies and offer our patients hope. Truly, anything that we can do to give our patients more hope and the best-possible experience is worth it.”
