Associate Degree Nursing Program Application Packet

(This Packet is for initial application for admission into the Dallas College Associate Degree Nursing program and is not used to apply for readmission into the Dallas College Nursing Program)

Revised for the Spring 2026 and Fall 2026 Application Cycle

Program Summary and Accreditation

The Dallas College School of Health Sciences offers a 60-credit hour Associate Degree Nursing (ADN) curriculum leading to an Associate of Applied Science Degree. The program is offered at the following campuses: Brookhaven, El Centro, Mountain View and North Lake.

The ADN program at Dallas College will prepare you for a career in health care that allows you to make a difference in people's lives. Our faculty draw on their knowledge and experience to ensure student success.

The program is accredited by the Accreditation Commission for Education in Nursing (Address: 3343 Peachtree Road, Suite 850, Atlanta, GA 30326; Telephone: 404-975-5000; Fax: 404-975-5020; Email: info@acenursing.org; Website: www.acenursing.org;) and approved by the Texas Board of Nursing (Address: 333 Guadalupe St., Suite 3-460, Austin, TX 78701-3944; Telephone: 512-305-7400; Fax: 512-305-7401; Email: webmaster@bon.texas.gov; Website: www.bon.texas.gov).

Note: An FBI background check and fingerprinting are required for registration and formal entrance to the program and is conducted after a student has applied and been accepted to the program. You will not be admitted into classes until the formal background check has been cleared by the Texas Board of Nursing (TBON) with a blue card or Declaratory Order.

How can I find out if I am eligible to take the licensing examination? Here is the link to the Texas Board of Nursing licensure questions. https://www.bon.texas.gov/licensure_eligibility.asp.html

Admission to the Dallas College ADN program is competitive. The process for identifying and ranking the top applicants is outlined in this information packet. Those students deemed eligible to apply will be placed into an applicant pool for consideration.

This information packet contains specific application guidelines and requirements. Submission of an application packet verifies that an individual has 1) read the packet thoroughly, 2) obtained all necessary documents from designated websites, and 3) understood the policies and procedures for application and acceptance to the program.

Program information packets are revised throughout the academic year as needed. Program guidelines are subject to change. Students are responsible for ensuring they have the latest program information.

Equal Educational Opportunity

Educational opportunities are offered by Dallas College without regard to race, color, religion, national origin, sex, disability, age, sexual orientation, gender identity, or gender expression.

The Dallas College ADN program has three variations. This packet combines common attributes of the three as well as a separate section for each that describes information specific to that variation. The three variations are:

- **Associate Degree Nursing (ADN)** – available to any qualified applicant
- **Licensed Vocational Nurse to Registered Nurse (LVN-RN) Advanced Placement** – available to applicants with a current LVN certification in the State of Texas
- **Methodist Health System (MHS) Associate Degree Nursing** – available only to applicants who are volunteers with, employees of or are family members of employees of the Methodist Health System (pg. 20)

A. Application Checklist

This checklist is provided to assist you in following the steps toward program application. It is not part of the application which is submitted. It is also organized toward an applicant just beginning their college experience. Some items may not be applicable if you have previous college credits.

- ☐ Obtain the [immunization and physical examination](#) requirements document. All immunizations/titers must be complete at the time of application,

NOTE: Some immunizations require multiple doses on a specific timeline over several months. Therefore, potential applicants should review their immunizations at least six to seven months prior to the application deadline. Schedule and take your Hepatitis B titer test* early. *This is a blood test that must be drawn to check for immunity.

- ☐ Complete the [application for college admission](#), if not already a Dallas College student.
- ☐ Submit official transcripts from all previously attended colleges/universities to studenttranscripts@dallascollege.edu or to Dallas College, ATTN: Admissions Processing, 3737 Motley Drive, Mesquite, TX 75150
- ☐ See a Success Coach as needed for TSI counseling, placement testing, etc., and complete any developmental courses as may be determined from the test scores.
- ☐ If desired, request an [Educational Plan](#) for evaluation of external course work that applies to the ADN curriculum.
- ☐ Complete the [prerequisite/support courses](#):
 - ENGL 1301
 - BIOL 2401
 - MATH 1314 or MATH 1342
 - RNSG 1301 or RNSG 1311
 - PSYC 2301 or PSYC 2314 (LVN-RN and MHS only)
 - BIOL 2402 (MHS only)
 - BIOL 2420 or BIOL 2421 (MHS only)
 - Humanities/Fine Arts elective (MHS only)

- ☐ Complete the required Continuing Education Dosage Calculations for Nursing course (RNSG-1008) with a 90% or better prior to the last day of the application period
- ☐ Complete the TEAS, scoring a minimum of 55% on all required sections of the test
- ☐ If time allows, complete the ADN support courses (ADN and LVN-RN applicants). Confer with Financial Aid to determine if/how this will impact your future financial aid eligibility and disbursements/expectations.
- ☐ If time allows prior to the application filing deadline, complete optional and other courses which apply to BSN Articulation programs (see [Selection Process](#) section for list)
- ☐ Complete the [“Associate Degree Nursing Interest Form”](#) found on the Dallas College Allied Health Sciences and Nursing Information Packets and Session website. This link will be available beginning the 1st day of the application period.
- ☐ If eligible, complete the “Supplemental Application” and upload all requested documentation. (See section H)

B. General Admission Requirements to the College

Applicants to the Associate Degree Nursing Program must meet all [college admission requirements](#) as outlined in the official college catalog.

Applicants must have earned either a high school diploma or General Education Diploma (GED) in addition to complying with Texas Success Initiative (TSI) requirements before they will be eligible to apply to the program. Students should consult the Success Coaching (advising) to determine their TSI status prior to application to a Health Sciences program.

Official College Transcripts

Prior to applying to the Associate Degree Nursing Program, potential applicants must submit official transcripts from all colleges and universities attended, regardless of whether the coursework is relevant to the program application. Transcripts from Dallas College campuses are not required.

The transcripts must be current, with a print date no earlier than three years prior to the applicant's anticipated admission to the program. If official transcripts are not submitted, the individual's application will be voided.

Official transcripts must be sent electronically from the applicant's previous colleges to studenttranscripts@dallascollege.edu. Transcripts sent by the applicant in pdf or other formats are not accepted. Transcripts may also be mailed from a college in a sealed envelope to Dallas College, Attn: Admissions Processing, 3737 Motley Drive, Mesquite, TX 75150.

Initial Advisement

Students who are beginning college for the first time will follow the [Steps to Enrollment](#) which will guide them from applying to the college system to placement testing, selecting a degree plan, contacting a Success Coach, and enrolling in prerequisite courses.

A student who has not completed college coursework should request a general Associate Degree plan from a Success Coach (advisor) as a starting point toward future application to a health science program. Note: Additional learning frameworks courses may be required for certain students.

C. Prerequisite/Support Courses

Applicants must complete the prerequisite courses listed below with a minimum grade of a “C” or higher and a prerequisite GPA of 3.0 to apply to the nursing program. The prerequisite GPA is considered in the point award ranking process. An applicant may present credit by exam (including Straighterline, Sophia or other ACE courses), CLEP, or “AP” credit for 1 of the prerequisite courses and 1 of the support courses. Credit will be acknowledged but not calculated with the grade point average. Please see Section D for more details.

If applying for the Methodist Health System Cohort, the support courses listed below must also be complete upon application.

If applying to the Licensed Vocational Nurse to Registered Nurse (LVN-RN) Advanced Placement, the PSYC 2301 or PSYC 2314 course must also be complete upon application.

Prerequisite Courses	Lec Hrs	Lab Hrs	Cr Hrs
RNSG 1008 Dosage Calculations for Nursing	0	0	0
BIOL 2401* Anatomy/Physiology I	3	3	4
ENGL 1301 Composition I	3	0	3
MATH 1314 College Algebra or MATH 1342 Elementary Statistical Methods**	3	0	3
RNSG 1301 Pharmacology or RNSG 1311 Nursing Pathophysiology	3	0	3
Support Courses			
PSYC 2301 General Psyc or PSYC 2314 Lifespan, Growth and Development (LVN-RN and MHS only)	3	0	3
BIOL 2402 Anatomy/Physiology II (MHS only)	3	3	4
BIOL 2420 or BIOL 2421 Microbiology (MHS only)	3	3	4
Humanities/Fine Arts elective (MHS only)	3	0	3

* BIOL 1406 is the prerequisite course for BIOL 2401 and must be completed with a grade of “C” or better within the last three years or present a satisfactory score on the CLEP Biology exam.

** Calculus I or higher is also accepted

Note: Dosage Calculations for Nursing (RNSG 1008), a continuing education course, is also a prerequisite course to the nursing program. For more information, please see [section F](#).

D. Evaluation of Previous Coursework

Official transcripts are fully evaluated by the Dallas College Transcript Evaluation Center after a student has been enrolled for at least one regular semester. However, students can request an Educational Plan, an evaluation of their previous coursework toward a health science program. The [Educational Plan](#) is a preliminary, unofficial degree plan for advisement purposes and only reflects specific courses toward a health science program. Educational Plans are optional and are not required for application to a health science program. They are usually completed within 4-8 weeks.

The School of Health Sciences and the Health Occupations Admissions Office reserve the right to accept or reject any coursework completed at other colleges presented for transfer evaluation toward

health science programs.

Note: Previous coursework is evaluated toward the program degree plan and does not include evaluation of additional courses toward BSN programs.

Five-Year Time Limit Select Courses

BIOL 2401, BIOL 2402, BIOL 2420 or BIOL 2421, RNSG 1301 and RNSG 1311 must be completed within five years of anticipated program entry to be considered valid. There are no exceptions to the five-year time limit. No waivers of the five-year time limit are considered. If a course is valid at the time of acceptance, it will remain valid for the duration of the program.

Credit by Examination, CLEP, and Advanced Placement Credit

Credit through CLEP, High School Advanced Placement Exams and Credit by Examination may be awarded for a limited number of courses toward health science programs including MATH 1314, PSYC 2301, and PSYC 2314. CLEP credit is not awarded for ENGL 1301. Advanced Placement (“AP”) credit for ENGL 1301, PSYC 2301, and MATH 1314 is acceptable if the credit appears on a college transcript as ENGL 1301, PSYC 2301, and MATH 1314 equivalency. A letter grade is not awarded for “AP” credit.

The American Council on Education (ACE) has identified a pool of online courses that Dallas College will accept toward your degree. Only courses on the ACE Crosswalk list are accepted ([Dallas College ACE Crosswalk](#)). Credit will be acknowledged but not calculated with the grade point average.

Note: An applicant to the Associate Degree Nursing Program may present credit by exam (including ACE courses), CLEP, or “AP” credit for only one of the four prerequisite courses and one support course. Credit will be acknowledged but not calculated with the grade point average.

See detailed information regarding [Credit by Exam, CLEP, and AP credit](#).

Coursework from International Institutions

Only microbiology and college-level algebra, statistics and calculus may be considered for transfer to the Associate Degree Nursing Program from colleges or universities outside the United States. No other courses will be considered. [International Coursework Evaluation](#) is a multi-step process which may take several weeks. The student must be enrolled in credit classes at a Dallas College campus before the evaluation process can be initiated.

E. Program Application Exam (TEAS)

TEAS

The [TEAS](#) test is a timed, computerized test which is usually completed in 3 hours. In addition to completing the five prerequisite courses, applicants to the ADN Program must also earn **a minimum score of 55% or higher** on the following sections of the TEAS test: **Reading, Mathematics, Science, English and Language Usage.**

ATI-TEAS Scoring	
Score	Points awarded for that section
55%-60%	1
61%-70%	2

71%-80%	3
81%-90%	4
91%-100%	5

The following is an example of points awarded for a sample applicant's TEAS scores:

TEAS Component	Score	Points Awarded
Reading	85	4
Mathematics	96	5
Science	75	3
English and Language Usage	60	1

Please note the following important information regarding the TEAS:

- Test scores are valid for **two years** from date of testing to the application filing deadline date.
- Applicants may take the TEAS at any approved testing site including the assessment center at the Downtown Health Sciences Center (formerly known as El Centro College Paramount Building). The approximate cost of the TEAS test is \$82.00. Additional fees will apply to online testing.
- Applicants are responsible for securing their own testing appointment at the location of their choice. Applicants are also responsible for submitting their score sheet with their program application materials.
- ATI testing appointments fill quickly. Applicants are encouraged to schedule their TEAS several weeks prior to an application filing deadline. Do not assume that you will have your score sheet to submit with application materials if you test on the application deadline date.
- The ATI-TEAS Study Guide is available on the ATI website <https://www.atitesting.com/teas>.
- There is no limit on the number of times an applicant may take the TEAS test for application to the ADN Program, but you may only take the TEAS four times a year.
 - If the applicant desires to retake the TEAS, **all four sections** must be retaken in one sitting.
 - Only one score sheet can be submitted with scores of 55% or higher on each of the four required sections.
 - If more than one score sheet is submitted, the scores from the most recent testing attempt will be the recorded scores.
- A 60-day waiting period is recommended before retesting, the applicant is encouraged to review the study guide.

Selection Process

Applicants are ranked for selection via a point award system*. Point totals range from a minimum of 8 points to a maximum of 59 points based on the criteria listed below.

Point Award Criteria		Potential Points Per Criteria
RNSG 1008 Dosage Calculations for Nursing (required)		Credit only, no points. Must score 90% or higher to pass
Grade on each Support Courses completed with a minimum grade of “C” (BIOL 2402, BIOL 2420, PSYC 2301 or PSYC 2314, humanities elective) A = 3 points B = 2 points C = credit acknowledged but no points awarded		12 Points
Prerequisite Course Cumulative GPA (3.0 minimum required) 3.00 – 3.49 = 4 points 3.50 – 4.00 = 5 points		5 Points
TEAS Test – Points awarded for each of the 4 following sections: Reading, Mathematics, Science, English and Language Usage 55 – 60 = 1 points 61 – 70 = 2 points 71 – 80 = 3 points 81 – 90 = 4 points 91 – 100 = 5 points		20 Points
Phi Theta Kappa Membership PTK (certificate with application materials) = 1 point Current employment with credential and employment documentation = 2 points		3 Points
Courses toward an RN to BSN transition program = 1 point per course + Dallas College offers an RN-BSN program. If you are considering applying, please consult the RN-BSN packet (link) for the required courses. ARTS 1301 Art Appreciation BIOL 1322 Principles of Nutrition BIOL 1406 Biology for Science Majors CHEM 1405 Introductory Chemistry <u>OR</u> CHEM 1411 Chemistry I ENGL 1302 Composition II ENGL 2311 Technical and Business Writing GOVT 2305 Federal Government GOVT 2306 Texas Government HIST 1301 US History I HIST 1302 US History II HUMA 1311 Mexican Am. Fine Arts Appreciation HUMA 1315 Fine Arts MATH 1342 Statistics <u>OR</u> MATH 1314 College Algebra PHIL 1301 Intro to Philosophy <u>OR</u> PHIL 2306 Intro to Ethics SPAN 1300 Basic Medical Spanish SPCH 1311 Intro to Communication SPCH 1315 Public Speaking SOCI 1301 Intro to Sociology RNSG 1301 Pharmacology <u>OR</u> RNSG 1311 Pathophysiology		19 Points
Maximum Total Points		59 Points

* If two or more applicants have the same point award total, the cumulative score on entrance exam will be used to break the tie. If additional items are needed to break the tie, they will be used in the following order: Cumulative GPA, Support Course Points and PTK or Credential Points

+ Points will be awarded for these courses only if the course numbers match exactly on an official transcript or on a Dallas College advising report as evaluated by the Transcript Evaluation Center. This consideration does not guarantee transferability of the courses toward any RN-BSN transition program.

Note: These courses cannot be counted more than once for points. Courses can only be counted as a prerequisite, support course, or RN-BSN course.

Example of Point Award Ranking

	Cumulative GPA on 4 Prerequisite Courses (Max. 5 pts.)	TEAS Scores on each section (Max. 20 pts.)	Support Course Grades (Max. 12 pts.)	PTK OR Credential (Max. 3 pts.)	Courses toward BSN programs (Max. 19 pts.)	Total Points (Max. 59 pts.)	Cumulative Score the entrance exam (tiebreaker)
App #1	3.80 = 5 pts.	Reading 97 = 5 pts. Eng/Lang 96 = 5 pts. Science 100 = 5 pts. Math 98 = 5 pts. TOTAL TEAS PTS. 20 pts.	PSYC 2314 A = 3 pts. BIOL 2402 A = 3 pts. BIOL 2420 A = 3 pts. F. Dosage Calculations for Nursing (RNSG 1008)

Dosage Calculations for Nursing (RNSG 1008) is offered every semester (including summer) and is a self-paced Continuing Education course which meets on campus for testing. This course is not for credit hours. Students must pass the dosage calculations exam with a minimum score of 90% or better for program application. This is a final grade of "CP" on the transcript or Advising Report. If the course is still in progress, the exam must be completed with a 90% prior to the end of the application period. A screenshot of the grade in Brightspace can be uploaded. Dosage Calculations exam scores are valid for two years. Contact ContinuingEd@DallasCollege.edu if you need assistance enrolling in the course.

Note: this course is NOT transferrable from another institution.

G. CastleBranch

Applicants to the ADN Program are required to have a current physical examination, specific immunizations, a tuberculosis screening, and BLS (Basic Life Support) CPR certification for healthcare providers. The Dallas College nursing program utilizes CastleBranch, a third-party vendor, to verify compliance of these requirements. Applicants submit this documentation directly to

CastleBranch. All requirements must be completed and uploaded to the vendor site by the last day of the application period. No additional documentation will be accepted after the end of the application period. Failure to complete and upload this documentation will result in disqualification of the applicant.

For a full list of immunizations and health records visit our [Immunizations Requirements](#) webpage.

Use the graphic below to create your CastleBranch account. You must use the provided link <https://portal.castlebranch.com/DZ40> to create your CastleBranch account. **Select ADN Program and make sure you purchase only the “compliance tracker” option for now.**

CastleBranch Instructions for opening an account:

How to Place Order

Welcome to **myCB**

To place your order go to:

<https://portal.castlebranch.com/DZ40>

Place Order → **Select Program** → **Select Package**

To place your initial order, you will be prompted to create your secure myCB account.
From within myCB, you will be able to:

- ✓ View order results
- ✓ Upload documents
- ✓ Manage requirements
- ✓ Place additional orders
- ✓ Complete tasks

Please have ready: personal identifying information needed for security purposes.
The email address you provide will become your username

Choose the ADN Program and select the DZ53im: Compliance Tracker only.

HOME	PACKAGE SELECTION	FAQ	CONTACT US
Please Select ADN Program DZ53bg: I need to order my Background Check DZ53im: I need to order my Compliance Tracker + Brookhaven Campus + El Centro Campus + Mountain View Campus + North Lake Campus + Nursing Faculty + RN to BSN Program + VN Program			

H. Application and Materials Submission

There are three parts to the application. The first is the “Supplemental Application”, the second are the links where requested documents will be uploaded. And the third is the CastleBranch compliance tracker above. The application materials must be scanned as pdf documents and uploaded to the link provided in the “Qualified Applicant” email.

Supplemental Application

- Basic demographic information
- Assigned Social Security number must be documented on application
- Texas Driver’s License or Texas State ID number must be documented on application.
- International student status
- Previous college experience
- Any previous nursing program attendance
- Campus preference will be ranked in order beginning with 1st choice
- Interest in the Evening/Weekend Offering of classes – This is not guaranteed and campus availability may vary

Once you are eligible and receive the links to upload documents, you must ensure the following are submitted prior to the end of the application period:

- Photocopy of both sides of a Texas Driver License or Texas State ID
- Photocopy of both sides of signed Social Security card
- High School Diploma or GED

- Letter of Good Standing from any nursing program attended prior to admission
- Official TEAS score sheet indicating achievement of 55% or higher on the four required sections.
- RNSG 1008 “CP” grade on the advising report. If in a current course that has not ended, a screenshot of your Dosage Calculation exam indicating a score of 90% or higher is taken prior to the end of the application period.
- Photocopy of your official Phi Theta Kappa membership card (if applicable)
- If you have a healthcare license or credential and work experience, submit a copy of your licensure or certification with a letter from your employer verifying your responsibilities and length of employment. (CNA, MA, PCT, PCA, Paramedic, or EMT)
- Copies of any prerequisite course substitution forms if you requested them (course waivers are considered)
- (LVN-RN) Documentation of a current Texas LVN license. For students who have successfully completed a Vocational Nursing program but do not possess a Texas LVN license, a Texas LVN license must be obtained by the 10th weekday of class. Failure to obtain and present a valid Texas LVN license by that date will result in dismissal from the program.

Submitting incomplete application materials or missing documents at the end of the application period will disqualify the applicant, and the individual will not be considered further in the selection process. Students are advised to retain a photocopy of all materials submitted as part of their application packet for their records.

I. Application Filing Periods

Official application filing period for Fall 2026 semester (late August) admission:

March 2, 2026 – March 31, 2026

Notification emails are sent on or after May 31, 2026.

Official application filing period for Spring 2027 semester (mid-January) admission:

August 1, 2026 – August 31, 2026

Notification emails are sent on or after October 15, 2026.

IMPORTANT NOTE: There is no late application filing period for this program.

J. Notification of Acceptance

Using the point-award process, a ranked list of applicants is generated. Program spaces are filled with qualified applicants according to their ranking. Individuals who receive an acceptance email must return confirmation within the specified timeframe to secure their place in the program. Failure to confirm by the specified date or failure to attend the scheduled preregistration/orientation seminar for the accepted semester will result in forfeiture of their place in that semester. Notification of acceptance, non-acceptance, or disqualification are sent via email.

Application materials are not “held over” to the next application filing period. Students who are not selected for admission to the program or students who decline their acceptance may reapply during the next filing period to be considered for a future admission opportunity.

K. Associate Degree Nursing Curriculum

Prerequisites				
Course	Title	Lecture Hours	Lab Hours	Credit Hours
RNSG 1008	Dosage Calculations	0	0	0
BIOL 2401	Anatomy/Physiology I	3	3	4
ENGL 1301	Composition I	3	0	3
MATH 1314 or MATH 1342	College Algebra or Elementary Statistical Methods	3	0	3

M. LVN to RN Advanced Placement Program Curriculum

The program is designed for a Licensed Vocational Nurse (LVN) to complete the ADN curriculum in an accelerated process. Applicants must complete all entrance requirements outlined in this information packet and must possess current Texas LVN licensure.

The LVN-RN Advanced Placement Program accepts a class of approximately 30 students each Fall and Spring semester.

Prerequisites				
Course	Title	Lecture Hours	Lab Hours	Credit Hours
RNSG 1008	Dosage Calculations	0	0	0
BIOL 2401	Anatomy/Physiology I	3	3	4
ENGL 1301	Composition I	3	0	3
MATH 1314 or MATH 1342	College Algebra or Elementary Statistical Methods	3	0	3
RNSG 1301 or RNSG 1311	Nursing Pharmacology or Nursing Pathophysiology	3	0	3
PSYC 2301 or PSYC 2314	General Psychology or Developmental Psychology	3	0	3
Subtotal		15	3	16

Semester 2				
Course	Title	Lecture Hours	Lab Hours	Credit Hours
BIOL 2402	Anatomy/Physiology II	3	3	4
BIOL 2420 or BIOL 2421	Microbiology	3	4	4
RNSG 1144	Nursing Skills II	0	4	1
RNSG 1441	Common Concepts of Adult Health	4	0	4
RNSG 2362	Clinical Registered Nursing/Registered Nurse	0	0	3
Subtotal		10	11	16

Semester 3				
Course	Title	Lecture Hours	Lab Hours	Credit Hours
RNSG 1160	Clinical Registered Nursing/Registered Nurse	0	0	1
RNSG 2213	Mental Health Nursing	2	0	2
RNSG 2161	Maternal/Newborn nursing and Women's Health	2	0	2
RNSG 2161	Clinical Registered Nursing/Registered Nurse	0	0	1
RNSG 2201	Care of Children and Families	2	0	2
RNSG 2160	Clinical Registered Nursing/Registered Nurse	0	0	1
Subtotal		6	0	9

Semester 4				
Course	Title	Lecture Hours	Lab Hours	Credit Hours
RNSG 1443	Complex Concepts of Adults	4	0	4
RNSG 2360	Clinical Registered Nursing/Registered Nurse*	3	0	3
RNSG 2121	Professional Nursing: Leadership and Management	1	0	1
Elective	Humanities or Fine Arts	3	0	3
Subtotal		11	0	11
Program Total				52

A minimum grade of “C” or better is required for ALL courses in the ADN program. Also, the nursing curriculum uses a stricter grading scale: C=78-83%, B=84-91%, A=92-100%.

* RNSG-2360 is the Capstone course for this award

After a student completes semester 4, an additional 8 credit hours will be awarded for RNSG 1413, RNSG 1105 and RNSG 1360 to complete the required hours for the degree.

Methodist Health System Cohort General Information

The MHS Cohort is only offered at the El Centro campus. To be considered for the ADN Program at Methodist Health System, an applicant must first meet the following criteria:

- 1) Must be one of the following:
 - a. Employed by Methodist Health System for a minimum of 6 months **OR**
 - b. A volunteer for a minimum of 6 months, accumulating 100 hours of consistent volunteer time prior to application **OR**

- c. A family member of a Methodist Health System employee
- 2) Completion of all standard ADN Program requirements and prerequisites
- 3) Completion of all ADN support courses (BIOL 2402, BIOL 2420, PSYC 2301 or PSYC 2314, Humanities or Fine Arts Elective) with a minimum grade of “C” in each course
- 4) Submit photocopies of the following documents to Kimm Wright by the [application deadline](#).
 - a. ADN – MHS application form and Statement of Students’ Responsibility form
 - b. MHS Profile Form
 - c. ATI-TEAS scoresheet
 - d. Photocopy of Physical Exam form, immunization records and BLS CPR card which have been submitted to Compliance Tracker

Q. Nursing General Information

1. The Dallas College ADN Program accepts approximately 40-60 students at each campus every fall and spring semester. **The School of Health Sciences reserves the right to make changes in program enrollment capacity.**
2. The Dallas College ADN Program is completed in four, 16-week academic semesters. Each course involves 16-20 hours per week of class, lab, and clinical experience with an additional 3-4 hours of studying and preparation time for each hour of class and clinical experience. Clinical experiences may involve both daytime, evening, and weekend hours. The student’s schedule will not allow for full-time employment while enrolled in the nursing program.
3. Students enrolled in the Dallas College ADN Program must be physically able to care for patients. This will involve lifting an adult patient of average size, moving, bathing, and transferring patients into and out of bed. Students will be on their feet for at least eight hours each clinical day. Students must be able to read fine print for medication administration purposes and be able to hear heart and breath sounds. Manual dexterity is required for skills such as starting IV’s, administering injections, etc. If a student has a medical condition which may compromise their ability to care for patients, a medical release from their physician may be required. Students will be exposed to infectious diseases.
4. Students must comply with class and clinical attendance requirements according to nursing student handbook guidelines which are published annually. Students who are absent from clinical for physical or mental illness, surgery or pregnancy reasons must present a written release from a physician before being allowed to return to the clinical setting. Students anticipating surgery or the delivery of baby are advised to wait until the following semester to apply to the nursing program.
5. Applicants to health sciences programs at Dallas College must submit physical examination and immunization documentation to the Compliance Tracker no later than the program application deadline. The physical examination must be on the official physical form and must have been documented no earlier than 12 months prior to the application deadline. School records will NOT be accepted. The specific immunizations and screenings are indicated on the health form. Students must be up to date with immunization requirements throughout their enrollment in the

ADN Program. **Note: Additional proof of immunizations including titers (blood test) may be required by hospital clinical sites. [Immunization Physical Exam and CPR document](#)**

6. After acceptance to their respective health science program, SOHS students may be assigned to external learning experiences ("ELE") in the form of clinicals, practicums or internships at external health care facilities that may require additional proof of immunity or additional inoculations/immunizations, including but not limited to vaccination for COVID-19 determined by clinical partners and on-demand, in accordance with their policies, procedures, and/or safety protocols ("collectively "Policies"). While assigned to an external health care facility SOHS students are subject to and must abide by the policies of the facility to which they are assigned. Dallas College cannot waive or make exceptions to those requirements; nor does the College control the requirements or policies imposed by external health care facilities. Requests for an exemption from such requirements as an accommodation (medical or religious) must be made with the external health care facility by the Nursing Department Chair or the Clinical Compliance employee of Dallas College. Applicants or students are not to contact any clinical site. A clinical site reserves the right to remove a student from or deny access to the facility for failure to provide evidence of immunization. An SOHS student who is removed from or denied access to an external clinical site in connection with their immunization status is not guaranteed an alternative ELE site placement.
7. All applicants must be certified in BLS – Basic Life Support for Health Care Providers CPR certification. CPR certification from the American Heart Association (AHA), Red Cross, or Military-approved mechanism is the only approved CPR course and must be face-to-face or hybrid training. Completely online courses are not accepted. The CPR certification must not expire prior to the anticipated program start date and must not expire during any semester while enrolled in the program. CPR courses are available through Dallas College (EMSP 1019), the American Heart Association, American Red Cross, various hospitals, independent instructors, etc.
8. Proof of current personal healthcare insurance coverage is required for all health sciences students. If documentation of coverage is not submitted to CastleBranch with immunization records, proof of coverage must be submitted in CastleBranch by the first day of the semester if a student is accepted to the program. Students must secure their own coverage. Information on college student policies and rates can be found at <https://www.healthcare.gov/>. The National Student Nurses' Association also partners with United Healthcare which offers a student policy for their members. See the following link for more information:
<http://augeobenefits.com/nsna/home.php>
9. After acceptance to their respective health science program, all students are required by the Dallas/Fort Worth Hospital Council member facilities to undergo a background check and drug screen prior to beginning their clinical experience. Students are responsible for all charges incurred for these screenings. Results of these screenings are available to the Dallas College ADN program for review to verify that a student is eligible to attend a clinical rotation. These screening results become the property of Dallas College and will not be released to the student or any other third party.

A clinical site reserves the right to remove a student from the facility for suspicion of substance use or abuse including alcohol. The clinical site reserves the right to request that a student submit to a repeat drug screening at the student's expense on the same day that the student is removed from the clinical facility. Failure to comply will result in the student's immediate expulsion from the clinical facility. Furthermore, regardless of testing or testing results, a clinical site reserves the right to expel a student from their facility.

Note: Should a student who has been accepted to a health science program be prohibited from attending a clinical rotation experience due to findings of a criminal background check and/or drug screening, the student may be dismissed from the program.

Students are required to answer certain questions on the Texas Board of Nursing application for Registration by Examination to become licensed as a Registered Nurse. These questions are regarding criminal convictions, mental illness or chemical dependency, or prior disciplinary action by a licensing authority for nurses. Students answering “yes” to those questions must submit the required documents with an explanation to the Texas Board of Nursing at least eighteen (18) months prior to graduation. The Texas Board of Nursing will consider these documents and reach a decision regarding eligibility to write the licensing examination. An applicant may request a Declaratory Order (a decision by the Texas Board of Nursing regarding an applicant’s eligibility to take the licensing exam) prior to entering the program of nursing. More information on this issue is found on the Texas Board of Nursing website at www.bon.texas.gov.

10. The Dallas College ADN Program has also collaborated with BSN nursing programs at several Texas universities. Students in the Dallas College ADN Program will graduate as “core complete” with 60 credits hours. Completion of the 60-credit hour nursing program coupled with 60 additional credits in a BSN program will result in a true 120 credit hour Bachelor’s Degree in Nursing. All RN-BSN articulation programs are offered online including Dallas College, have no local residency requirement, and offer automatic acceptance to Dallas College nursing graduates.
